Data sheet

JC35TS-R12R

- JC35TS-R12R is a two-stage rectangular tube single motor lifting system suitable for office applications.
- It uses rectangular lifting columns to ensure the strength and stability of the columns, while also being more cost-effective.

The JS36DR10-2-R column and all control boxes from JIECANG are compatible, ensuring low noise and stable operation, with a standby power consumption of less than 0.1W.

- There are multiple colors available to choose from.

Features

- Maximum load: 500N
- Equipped with JIECANG control box, no-load & load speed: 10mm/s
- Noise: ≤ 55 dB
- Maximum lateral force: 100N.m
- Standard installation distance: 657mm
- Standard stroke: 490mm
- Outer tube size: 60x45mm
- Motor: JIECANG self-made motor
- With Hall feedback
- Surface: spray, standard color:white, black and gray

Usages

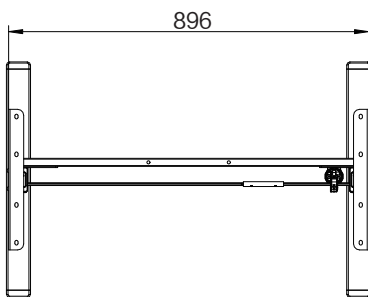

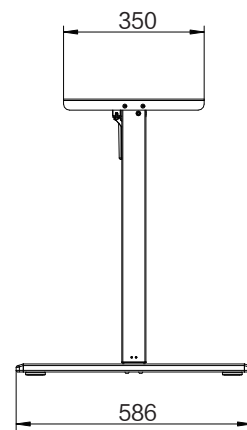

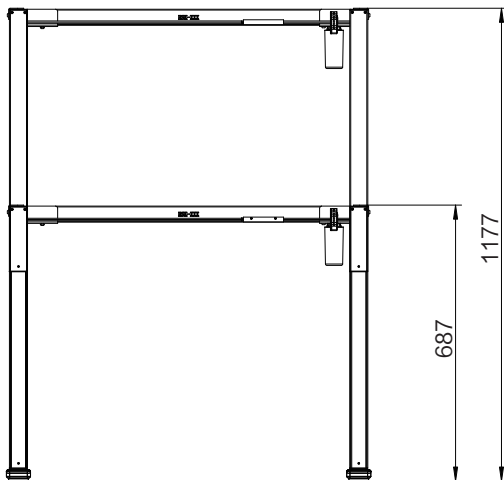

- Matching control box: JCB35M22C;
- Operation mode: 10%; work for 2 minutes and rest for 18 minutes;
- Operating environment: indoor;
- Storage and transportation temperature: -10°C to 70°C .
